A functional supplement is a nutritional product designed for cardio athletes, strength trainers, and other high-intensity exercisers. Functional supplements provide consumers with additional vitamins, minerals, phytonutrients, proteins and other chemicals to enhance physical performance and recovery. Common functional supplements include protein powder, potassium acid, creatine, vitamins and minerals, and other nutritional supplements. These supplements should not replace foods by themselves, but should be used in conjunction with a healthy diet and exercise program to ensure optimal results.

This report is a detailed and comprehensive analysis for global Functional Supplements market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.
