It is expected that in the next few years, China will grow the fastest,

A functional supplement is a nutritional product designed for cardio athletes, strength trainers, and other high-intensity exercisers. Functional supplements provide consumers with additional vitamins, minerals, phytonutrients, proteins and other chemicals to enhance physical performance and recovery. Common functional supplements include protein powder, potassium acid, creatine, vitamins and minerals, and other nutritional supplements. These supplements should not replace foods by themselves, but should be used in conjunction with a healthy diet and exercise program to ensure optimal results.

This report studies the global Functional Supplements production, demand, key manufacturers, and key regions.
