Abstracts

Furniture refers to movable objects intended to support various human activities such as seating (e.g., chairs, stools, and sofas), eating (tables), and sleeping (e.g., beds). Furniture is also used to hold objects at a convenient height for work (as horizontal surfaces above the ground, such as tables and desks), or to store things (e.g., cupboards and shelves). Furniture can be a product of design and is considered a form of decorative art. In addition to furniture's functional role, it can serve a symbolic or religious purpose. It can be made from many materials, including metal, plastic, and wood.

SCOPE OF THE REPORT:

This report focuses on the Furniture and Furnishing in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The home furniture segment accounts for the largest revenue share due to the evolution of flat-pack and RTA furniture. To cater to the rising demand, the vendors in the market are focusing on manufacturing flat-pack furniture for medium-price segments and solid wood furniture targeted at the high-end market.

This market study estimates that in terms of geographic regions, APAC will be the major revenue contributor to the market. This is mainly due to the increasing spending capacity of the end users. Additionally, the growth of the developing countries in the region that will stimulate the demand for modern furniture, will also fuel the market's growth prospects.

The worldwide market for Furniture and Furnishing is expected to grow at a CAGR of

roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
