## Abstracts

The global Futsal Balls market size is expected to reach \$ 3 million by 2029, rising at a market growth of 7.0% CAGR during the forecast period (2023-2029).

Futsal is a soccer-based game played on a hard surface such as a basketball court, which is smaller than a football pitch and is mainly played indoors. Futsal is a low bounce ball that is smaller than regular outdoor football. The nature of futsal is specifically designed to develop skill, the repeated touches of the ball will eventually produce a movement which when transplanted outdoors with a high bouncing ball translates into a more solid and proportionally longer pass suitable for large pitches ball. The growing popularity of the sport among young people. Football is enjoyed by people of all ages and has a respectable following to generate enough interest in futsal as well. It can also be played on any surface and requires very little equipment, making it the perfect sport for players of all ages. Moreover, the market is expanding owing to the growing number of international professional teams and athletes. Another factor expected to drive market growth over the forecast period is the expansion of television coverage of football matches.

The futsal ball is a low-bounce ball that is smaller than a normal outdoor soccer ball. The futsal ball's properties are specifically designed to develop skills. When a futsal ball is received via a good pass, it virtually 'sticks to the foot.' This builds great confidence in tight spaces when rapid passes are being issued repeatedly. Interestingly, that same property which makes the ball easy to receive makes it more difficult to strike. A futsal ball gradually eliminates the 'lazy pass'. Players rapidly get acquainted with the merits of bending the knee, turning the hips, and striking the ball firmly to propel it. Repeated touches on the ball eventually produce a motion which, when transplanted outdoors with a high bounce ball, translates into a firmer and proportionately longer pass appropriate

for the big field.
