## Abstracts

The global Generator Rental Service market size is expected to reach \$ 29168 million by 2032, rising at a market growth of 4.4% CAGR during the forecast period (2026-2032).

Generator Rental Service refers to a business model that provides the temporary leasing of various types and sizes of electric power generators under short-term or long-term contracts to clients requiring a provisional power supply. These needs typically arise from construction sites, outdoor events, industrial backup power requirements, or for emergency power during grid failures or maintenance periods. The service is commonly offered as a comprehensive, end-to-end solution, encompassing the selection, delivery, installation, commissioning, on-site fuel management, and 24/7 technical support and maintenance for the generator equipment throughout the rental period.

This report studies the global Generator Rental Service demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Generator Rental Service, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Generator Rental Service that contribute to its increasing demand across many markets.
