## Abstracts

The global Go Stones and Go Board market size is expected to reach \$ million by 2029, rising at a market growth of % CAGR during the forecast period (2023-2029).

The industry trend for Go Stones and Go Boards primarily revolves around preserving traditional craftsmanship and promoting the game's heritage. While the popularity of Go may not be as widespread as other board games, there is a dedicated community of players and collectors who appreciate the cultural significance and strategic depth of Go. The trend focuses on producing high-quality Go Stones and Go Boards, often made from natural materials such as slate, clamshell, or porcelain, to provide an authentic gaming experience. There is also a growing interest in artistic and collectible boards and stones, with unique designs and intricate craftsmanship. Furthermore, digital platforms and apps are being developed to promote Go and offer online gameplay, aiming to reach a wider audience. The industry trend aims to preserve and promote the rich history and enjoyment of the game of Go.

Go Stones and Go Board are essential components of the ancient board game known as Go. Go is a strategy game that originated in China over 2,500 years ago and is popular worldwide. The Go Board is a square grid board with 19 horizontal and vertical lines, creating a total of 361 intersections. Go Stones are typically made of glass or a high-quality synthetic material and are placed on the intersections of the grid. Two players take turns placing their stones on the board, aiming to capture territory by surrounding their opponents' stones. The game involves strategic planning, deep thinking, and spatial reasoning.
