Abstracts

In the process of the gold pledge loan, in order to avoid the loan risk caused by the fluctuation of the gold market price, the borrowers and the borrowers need to set up and abide by the cordon line and the flat line of the pledge of gold. When the price of the gold market falls to the warning line, the bank will promptly notify the customer to add or return some of the loan in advance, making the amount of the pledge of gold more than equal to the principal of the loan. When the market price of the pledged gold falls to the closing line, the bank will sell the gold in pledge and return the loan in time.
