## Abstracts

The global GPS Audio Tours market size is expected to reach \$ million by 2030, rising at a market growth of % CAGR during the forecast period (2024-2030).

GPS Audio Tours is a tour guide service based on Global Positioning System (GPS) technology. It is usually provided in the form of a mobile application. Users can download the corresponding APP and use their mobile phones or other mobile devices for navigation. These apps use the GPS positioning function to provide corresponding navigation content based on the user's location information. When the user approaches a specific attraction, landmark or place of interest, GPS Audio Tours will automatically trigger the corresponding voice explanation to provide the user with an introduction, historical background, cultural significance and other relevant information about the place. Users can listen to voice explanations through headphones or speakers while viewing relevant images, maps or text descriptions on the screen.

The advantage of GPS Audio Tours is that it can provide a personalized tour experience based on the user's location and travel route, helping users better understand and appreciate the history, culture and style of the tourist destination. It also provides tourists with free and flexible guided tours. They no longer need to rely on tour guides or groups, and can explore and learn at their own pace and interests.

This report studies the global GPS Audio Tours demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for GPS Audio Tours, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2023 as the base year. This report explores demand trends and

competition, as well as details the characteristics of GPS Audio Tours that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global GPS Audio Tours total market, 2019-2030, (USD Million)

Global GPS Audio Tours total market by region & country, CAGR, 2019-2030, (USD Million)

U.S. VS China: GPS Audio Tours total market, key domestic companies and share, (USD Million)

Global GPS Audio Tours revenue by player and market share 2019-2024, (USD Million)

Global GPS Audio Tours total market by Type, CAGR, 2019-2030, (USD Million)

Global GPS Audio Tours total market by Application, CAGR, 2019-2030, (USD Million).

This reports profiles major players in the global GPS Audio Tours market based on the following parameters – company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include VoiceMap, GyPSy Guide, SelfTour, TravelStorys, Audio Trails, Tripvia Tours, Shaka Guide, SmartGuide and izi.TRAVEL, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World GPS Audio Tours market.

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), by player, by regions, by Type, and by Application. Data is given for the years 2019-2030 by year with 2023 as the base year, 2024 as the estimate year, and 2025-2030 as the forecast year.
