Abstracts

Maintaining a healthy lifestyle and a healthy diet is a top priority among consumers today. However, besides health benefits, consumers also look for good taste when purchasing food products. Thus, granola bars fit the requirements of consumers. The portability and filling capacity of these bars are the other reasons behind their growing popularity.

Scope of the Report:

This report focuses on the Granola Bars in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. One driver in market is multiple health benefits of granola. Over the past two decades, urbanization and consumerism have led to considerable changes in the lifestyles and dietary habits of people across the world. There has been a substantial increase in the consumption of artificial and synthetic food products, increasing the incidence of lifestyle diseases such as drug abuse, alcohol, and smoking. However, consumers are becoming more concerned and conscious about their health and fitness and paying more attention to the nutritional content of the food they eat. Thus, ingredients such as granola that have multiple health benefits are becoming popular among consumers. One trend in market is burgeoning marketing initiatives. Granola bar vendors are following integrated marketing communication, using newspapers, magazines, and social media such as YouTube and Facebook to sell their products. These communication channels are playing a key role in generating product awareness and focusing on the benefits of granola bars. Players are also launching innovative advertisement campaigns displaying the various new flavors of granola bars and the

important ingredients used in these bars to create a positive impact on consumers.

North America held the most dominant market share in the granola bars market in 2016 and is expected to hold its dominance throughout the forecast period. This is attributed to the high awareness among consumers about the benefits of granola.

The worldwide market for Granola Bars is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
