Grapefruit Comminute is made by crushing seeded red or white grapefruit, retaining flesh, juice, and partial peel for a signature bitter-sweet profile and pink/yellow hue (variety-dependent). Rich in naringin and limonoids, it contributes metabolic and cardiovascular benefits beyond flavor. Primarily used in functional beverages (e.g., recovery drinks), jams, and nutraceuticals, its low GI and satiety-promoting properties suit weight-management products. Processing requires peel content control to balance bitterness, with aseptic/freezing preservation.
