## Abstracts

According to our (Global Info Research) latest study, the global Graphite Briquette market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

Graphite Briquette is a kind of carbon enhancer, which is made of natural earthy graphite through crushing, batching, pressing and molding, drying and curing. It is in black hemisphere shape and has the characteristics of soft material, low P and S, odorless, and high absorption rate. It is suitable for raising temperature and increasing carbon when adding scrap steel in electric furnace and converter. It is convenient to use and can be put into use, which meets the requirements of environmental protection.

This report is a detailed and comprehensive analysis for global Graphite Briquette market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:

Global Graphite Briquette market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2018-2029

Global Graphite Briquette market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2018-2029

Global Graphite Briquette market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2018-2029

Global Graphite Briquette market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/Ton), 2018-2023

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Graphite Briquette

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Graphite Briquette market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Shandong Yida New Materials, Anyang HUAXIN Metallurgy FIRE-RESISTANT Material, Liaoning SINO-MAT Technology Industrial, Chenzhou Hengxiang Graphite and Ruhn Yu Enterprise and etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Market Segmentation

Graphite Briquette market is split by Type and by Application. For the period 2018-2029, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.
