Abstracts

According to our (Global Info Research) latest study, the global Green Burial Service market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

Rapidly growing global population, emerging green funeral technologies and burial methods, rising air pollution and climate change, and consumer interest shifting from traditional funeral alternatives to more environmentally friendly funerals are the key factors driving the green funeral market revenue.

Green Burial Service is a popular funeral concept today. It encourages people to use natural, environmentally friendly, energy-saving, simple and sustainable methods, occupy less land resources, and use innovative, creative and low-consumption methods to create a new generation of funeral culture.
