## Abstracts

According to our (Global Info Research) latest study, the global Group Captive Insurance market size was valued at US\$ 3824 million in 2024 and is forecast to a readjusted size of USD 5965 million by 2031 with a CAGR of 7.3% during review period.

Group Captive Insurance refers to a self-insurance arrangement in which a group of unrelated companies (or members) come together to create and own a single captive insurance company. This captive insurer provides coverage for the group's collective risks, such as property, liability, workers' compensation, or other types of insurance. By pooling resources, the member companies share both the costs and the risks associated with insuring their businesses, typically resulting in cost savings, enhanced control over claims management, and customized coverage options.
