Abstracts

Grow tents enable consumers to do gardening and produce crops indoors with the help of grow-tent hydroponics system that use less water and other effective methods. These tents provide a control system to grow off-seasonal and exotic vegetables, fruits, flowers, and plants irrespective of the external weather conditions and also provide the right temperature, water, and air.

Scope of the Report:

This report focuses on the Grow Tents in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes The market based on manufacturers, regions, type and application.

The global market grow tents market is expected to grow significantly during the forecast period. In 2016, Europe, with a share of 32.50%, held the largest share in The global grow tents market. Expansion in the population base and urbanization have led to deforestation of agricultural land to build roads and other urban infrastructure. Hence, the percentage of agricultural land has dropped. These factors have helped the indoor cultivation market grow and will drive the grow tents market in Europe during the forecast period.

The worldwide market for Grow Tents is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
