Abstracts

According to our (Global Info Research) latest study, the global Guanylthiourea market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

Guanylthiourea is a raw material used to manufacture metal surface treatment agents (rust inhibitors). It can be used to remove residual chlorine in wastewater. It can be used as a pickling accelerator for steel sheet substrates. Also used as a raw material for pharmaceuticals.

This report is a detailed and comprehensive analysis for global Guanylthiourea market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Purity and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:

Global Guanylthiourea market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (USD/Kg), 2018-2029

Global Guanylthiourea market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (USD/Kg), 2018-2029

Global Guanylthiourea market size and forecasts, by Purity and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (USD/Kg), 2018-2029

Global Guanylthiourea market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (USD/Kg), 2018-2023

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Guanylthiourea

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Guanylthiourea market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Asahi Chemical, Toyobo, Ronak Chemicals, Yibin Ereal Chemical and Hubei Yuecheng Biotechnology. etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Market Segmentation

Guanylthiourea market is split by Purity and by Application. For the period 2018-2029, the growth among segments provides accurate calculations and forecasts for consumption value by Purity, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Purity
