Abstracts

The global Gutter Cleaning Services market size is expected to reach \$ 628 million by 2032, rising at a market growth of 6.0% CAGR during the forecast period (2026-2032).

Gutter Cleaning Services refers to the professional maintenance and removal of fallen leaves, silt, moss, bird nests, garbage, and blockages from the eaves drains, downpipes, rain gutters, and gutter systems of residential, commercial, school, factory, warehouse, and public buildings. Its core purpose is to ensure smooth rainwater drainage and prevent roof leaks, damp walls, water accumulation in the foundation, mold growth, pest infestation, and damage to the drainage system. This service is typically provided by exterior cleaning companies, property maintenance companies, roof repair companies, housekeeping/on-site service platforms, or professional drain cleaning chains.

Driven by aging residential & commercial building stock, frequent extreme weather storms, rising property maintenance awareness, labor cost inflation and aging homeowner demographics, Gutter Cleaning Services have evolved from single debris removal into full exterior property maintenance packages integrating gutter inspection, vacuum cleaning, downspout flushing, leak repair, gutter guard installation, roof & pressure washing, and seasonal recurring subscription plans.

Automated & remote-operated cleaning equipment becomes core operational competitiveness. Telescopic vacuum systems, drone visual inspection, track-mounted gutter robots and battery-powered high-pressure washers cut on-site labor time by over 30% and reduce ladder fall safety risks, easing the industry-wide labor shortage pain point. Cloud-based booking & CRM platforms, AI remote measurement quoting and mobile field management software standardize service workflows; over 70% of orders

are booked via digital channels, replacing offline phone inquiries.

This report studies the global Gutter Cleaning Services demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Gutter Cleaning Services, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Gutter Cleaning Services that contribute to its increasing demand across many markets.
