Abstracts

The global Halal Food market size is expected to reach \$ 2246520 million by 2032, rising at a market growth of 4.2% CAGR during the forecast period (2026-2032).

The Arabic word for “permitted.” Halal is commonly seen as “Halal” which means food that is permitted under Islamic guidelines as found in the Qu’ran Most food and drinks are considered Halal unless they are clearly stated as forbidden in the Qur’an (holy book of Islam) and hadith (prophetic traditions).

The halal industry is based on a belief that Muslims should eat food and use goods such as cosmetics that are 'halalan toyibban', which means permissible and wholesome. In fact, the halal market is non-exclusive to Muslims, and has gained increasing acceptance among non- Muslim consumers who associate halal with ethical consumerism.

Actually, the halal industry has now expanded beyond the food sector to include pharmaceuticals, cosmetics, health products, toiletries and medical devices as well as service sector components such as logistics, marketing, print and electronic media, packaging, branding, and financing. In addition, the halal food marketplace is emerging as one of the most profitable and influential market arenas in the world food business today.

The major players in global Halal Food market include Nestle, Allanasons Pvt, BRF, Midamar, etc., and the market concentration rate is low, the top 3 players occupy about 1% shares of the global market. East Asia and Middle East & North Africa are main markets, they occupy about 55% of the global market. Fresh Products is the main type, with a share about 45%. Restaurant and Home are the main applications.

This report studies the global Halal Food production, demand, key manufacturers, and key regions.
