## Abstracts

According to our (Global Info Research) latest study, the global Halogenated Butyl Rubber market size was valued at US\$ 5501 million in 2024 and is forecast to a readjusted size of USD 8264 million by 2031 with a CAGR of 6.1% during review period.

Halogenated butyl rubber is white to light amber bales. It is got from butyl rubber halogenated with chlorine and bromine. Both chlorinated (chlorobutyl) and brominated (bromobutyl) versions of halobutyl are commercially available. They are mainly used in the tire industry. In addition to tire applications, halogenated butyl rubber's good impermeability, weathering resistance, ozone resistance, vibration dampening, and stability make them good materials for pharmaceutical stoppers, construction sealants, hoses, and mechanical goods. In this report, the volume of halogenated butyl rubber is calculated by chlorinated (chlorobutyl) and brominated (bromobutyl) rubber.

Halogenated butyl rubber primary application in tire inner liners and tubes for automobiles provides a strong growth opportunity. With the rising demand for vehicles, especially electric vehicles (EVs), the need for more efficient and durable tires is growing. Halogenated butyl rubber's excellent air retention, heat resistance, and impermeability make it ideal for this use.

Moreover, halogenated butyl rubber is widely used in pharmaceutical closures (e.g., vial stoppers, seals) and medical products. The global expansion of healthcare infrastructure and growing demand for pharmaceutical products, especially in developing markets, offer significant growth potential.

There are mainly three producers of halogenated butyl rubber in China. In August 2018,

five-year anti-dumping duties on halogenated butyl rubber from the United States, the EU and Singapore were imposed by China. In Sep, 2024, China will continue to impose anti-dumping duties on halogenated butyl rubber originating from the United States, the European Union (EU), the United Kingdom (UK) and Singapore. Duties ranging from 23.1 to 75.5 percent will be levied toward the related companies for a five-year period, according to the ministry.
