Abstracts

Hand hygiene is one of the segments of the personal care market. The personal care market includes personal hygiene products used by individuals and healthcare personnel. Personal care products facilitate personal hygiene and grooming. The products promote beauty, vitality, and improved standards of living. Personal care products are used across several end-users, encompassing residential, commercial, and industrial end-users. Personal hygiene requires the observation of consistent practices that are conducive to cleanliness; any negligence can make one vulnerable to various contagious diseases.

Scope of the Report:

This report focuses on the Hand Hygiene in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes The market based on manufacturers, regions, type and application. The growing number of hygiene-related campaigns as one of the primary growth factors for this market. Several organizations have undertaken the responsibility to increase the number of hygiene-related campaigns across the globe to inculcate the importance of healthy and safe hand hygiene practices. Such initiatives focus on the prevention of onsite infections among individuals, healthcare workers, and patients by creating awareness about hand hygiene. The United Nations Children's Fund (UNICEF) has already undertaken the task to design water, sanitation, and hygiene (WASH) programs to achieve a greater impact. The continued efforts by global and public health organizations to promote healthy hygiene practices will create the demand for hand hygiene products.

The Americas will be the major revenue contributor to the hand hygiene market by

2021. The increase in adoption of hand hygiene products will increase in the region due to the growing prevalence of infectious diseases. Also, the introduction of stringent regulations by the Occupational Safety and Health Administration (OSHA) that mandate the commercial units to adhere to strict hand hygiene practices to ensure a safe and healthy environment, will also drive the growth of The market in the Americas.

The worldwide market for Hand Hygiene is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
