Abstracts

A hand tools and accessories refer to any tool that is not a power tool ? that is, one powered by hand (manual labour) rather than by an engine. Some examples of hand tools are garden forks, secateurs, rakes, hammers, spanners, pliers, screwdrivers and chisels. Hand tools are generally less dangerous than power tools.

SCOPE OF THE REPORT:

This report focuses on the Hand Tools and Accessories in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. With the rapid growth of the global automobile market, the development of the industrial segment has also been augmented. The growth of the segment is not restricted to a particular region, as the automobile industry is flourishing across the world. Increasing consumer spending ability and per capita, disposable income is also creating a positive impact on the industrial segment. The increase in technical jobs and employment is a great opportunity for the hand tools market to expand in terms of quality and pricing, as professionals use high-end tools and are willing to pay more for such products.
