A handwritten E-ink tablet is a device that allows users to write or draw on a digital surface using a stylus, much like traditional pen and paper, but with the added benefit of being able to save and edit the digital file. E-ink (electronic ink) is a technology that mimics the look and feel of traditional ink on paper, but with the added advantage of being digital. Unlike traditional LCD screens, E-ink displays use very little power and are highly visible in direct sunlight, making them ideal for reading and writing in outdoor settings.
