Abstracts

Human capital management (HCM) is the comprehensive set of practices for recruiting, managing, developing and optimizing the human resources of an organization.

Scope of the Report:

HCM suites are sold either as components of enterprise resource planning (ERP) systems or as separate products that are typically integrated with ERP. In recent years, on-premises HCM has been superseded by software as a service (SaaS) as the preferred deployment option.

The global HCM Software market is valued at 14400 million USD in 2017 and is expected to reach 24100 million USD by the end of 2023, growing at a CAGR of 9.0% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of HCM Software.

Europe also play important roles in global market, with market size of xx million USD in 2017 and will be xx million USD in 2023, with a CAGR of xx%.

This report studies the HCM Software market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report
