Abstracts

HD Map (High Definition Map) is one of the essential members of the safe driving core chain. High Definition means that the absolute coordinates are more accurate. Absolute coordinate accuracy refers to the accuracy of a target on a map and a real thing in the real world. The absolute accuracy of a HD Map is generally fine at the sub-meter level, and the relative accuracy of the landscape (eg, the relative position accuracy of the lane and lane, lane and lane) is often higher. On the other hand, HD Map contain more informative and detailed information on road traffic information. HD Map not only have high-precision coordinates, but also accurate road shape, and each lane slope, curvature, heading, elevation, roll data are also included.
