Abstracts

According to our (Global Info Research) latest study, the global Healthcare CRM Solution market size was valued at US\$ 1756 million in 2025 and is forecast to a readjusted size of US\$ 2626 million by 2032 with a CAGR of 5.9% during review period.

To address the problems of fragmented patient information, low communication efficiency, cumbersome service processes, and difficulties in patient retention in traditional healthcare services, healthcare CRM solutions have emerged. Since the early 21st century, with the deep integration of healthcare informatization and customer relationship management technologies, healthcare CRM has gradually risen, driving the digital transformation of healthcare service models. Currently, healthcare CRM is widely used in general hospitals, specialist clinics, health management institutions, elderly care centers, and pharmaceutical marketing companies.

Healthcare CRM solutions are experiencing explosive growth driven by technology, with both market opportunities and challenges. Enterprises need to achieve breakthroughs through technological innovation, differentiated competition, and supply chain integration, while simultaneously addressing challenges such as data security, technological iteration, and market competition to capitalize on the continuous demand brought about by digital transformation.
