Abstracts

Healthcare supply chain management is the regulation of the flow of medical goods and services from manufacturer to patient, it mainly includes hardware and software, the downstream customer mainly includes the manufacture, providers, and distributors.

SCOPE OF THE REPORT:

This report studies the Healthcare Supply Chain market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Healthcare Supply Chain market by product type and applications/end industries.
The health care supply chain involves three main groups: manufacturers (manufacturing companies), distributors, and providers (hospitals, pharmacies, and clinics). In terms of component, its divisions include software (revenue market share over 62% in 2016) and hardware(revenue market share about 38% in 2016). The former accounted for a major share in the global market in 2016, due to increased adoption of the supply chain management software, and rising applications such as customer relationship management and execution of value chain transactions. This segment is expected to register a prominently high CAGR (about 9%) during the forecast period.
By end-user, this market includes manufacturers (41%), distributors (41%), and providers(41%), of which the manufacturers dominated the global market in 2016. However, the providers segment, which includes hospitals and other service providers, is anticipated to reflect a higher CAGR during the forecast period.The health care supply chain involves three main groups: manufacturers (manufacturing companies), distributors, and providers (hospitals, pharmacies, and clinics).
