Heavy-Duty Vehicle Wash Machine is an automated car wash equipment specially designed for washing trucks, buses, large construction vehicles and other heavy vehicles. Due to the complex structure and large size of heavy vehicles, traditional cleaning methods are time-consuming and have limited effects. Heavy vehicle wash machines can quickly and comprehensively clean the exterior, chassis and wheels of vehicles through high-pressure water flow, rotating brushes and special cleaning agents. The equipment is often designed with an automated system. The vehicle only needs to drive into the washing area, and the system can automatically complete the cleaning process, greatly improving efficiency and reducing labor costs.
