## **Abstracts**

Since the last decade, the introduction of new tourist destinations has fueled a revolution in the global tourism industry. With the increase in the number of the tourism service providers, there has been a significant growth in the demand for air travel and a simultaneous rise in the number of aircraft and helicopter. Some countries, such as Australia, France, Spain, South Africa, Hong Kong, Indonesia, the UK, and the US have been the major beneficiaries of global tourism over the years.

### Scope of the Report:

This report studies the Helicopter Tourism market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Helicopter Tourism market by product type and applications/end industries.

The growing popularity of helicopter travel is one of the primary drivers of the market growth. The significant growth in the air travel over the years has led to travel companies offering low-priced flights. This, in turn, has increased the number of customers opting for helicopter rides. The preference of helicopters as the ideal mode of travel for older tourists and passengers with disabilities, the benefit of a better view for the passengers as they fly lower, and provision of a unique tour experience as it can travel to hard-to-reach places, will drive the growth of the market in the next few years.

The global Helicopter Tourism market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Helicopter Tourism.

Europe also play important roles in global market, with market size of xx million USD in 2017 and will be xx million USD in 2023, with a CAGR of xx%.
