Abstracts

The global HER-2 Targeted Drugs for Breast Cancer market size is expected to reach \$ 16819 million by 2032, rising at a market growth of 5.6% CAGR during the forecast period (2026-2032).

HER-2 targeted therapies for breast cancer are precision medicines developed for patients with HER-2-positive or HER-2-low breast cancer. By blocking the HER-2 signaling pathway, mediating immune-mediated killing, or delivering cytotoxic payloads, these drugs inhibit tumor growth and improve patient survival outcomes.

The upstream segment of the industry encompasses antibody engineering, cell lines, ADC linkers and payloads, small-molecule APIs, culture media, consumables, and CDMO services; the downstream segment targets hospital oncology departments, breast cancer specialty clinics, and patients.

The global market for HER-2 targeted breast cancer therapies is expected to continue evolving toward precision stratification, long-acting formulations, combination therapies, and advancements in Antibody-Drug Conjugates (ADCs). As patient populations—specifically those with HER-2-positive, HER-2-low, and ultra-low expression—become further stratified, drug R&D efforts will expand beyond traditional monoclonal antibodies to encompass ADCs, bispecific antibodies, small-molecule TKIs, and combination immunotherapy regimens. Future competition will center on enhancing therapeutic efficacy, mitigating drug resistance, improving safety profiles, and expanding treatment indications to include early-stage adjuvant, neoadjuvant, and late-stage post-line therapy settings; concurrently, the widespread adoption of companion diagnostics will facilitate more precise identification of eligible patient populations.

This report studies the global HER-2 Targeted Drugs for Breast Cancer demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for HER-2 Targeted Drugs for Breast Cancer, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of HER-2 Targeted Drugs for Breast Cancer that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global HER-2 Targeted Drugs for Breast Cancer total market, 2021-2032, (USD Million)

Global HER-2 Targeted Drugs for Breast Cancer total market by region & country, CAGR, 2021-2032, (USD Million)

U.S. VS China: HER-2 Targeted Drugs for Breast Cancer total market, key domestic companies, and share, (USD Million)

Global HER-2 Targeted Drugs for Breast Cancer revenue by player, revenue and market share 2021-2026, (USD Million)

Global HER-2 Targeted Drugs for Breast Cancer total market by Type, CAGR, 2021-2032, (USD Million)

Global HER-2 Targeted Drugs for Breast Cancer total market by Application, CAGR, 2021-2032, (USD Million)

This report profiles major players in the global HER-2 Targeted Drugs for Breast Cancer market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Roche, GlaxoSmithKline(GSK), Novartis, Pfizer, CANbridge, Puma Biotechnology, Hengrui Medicine, Beacon Pharma, Hetero Drugs, Eli Lilly and Company, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the world HER-2 Targeted Drugs for Breast Cancer market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), by player, by regions, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.

Global HER-2 Targeted Drugs for Breast Cancer Market, By Region:

United States

China

Europe

Japan

South Korea

ASEAN

India

Rest of World

Global HER-2 Targeted Drugs for Breast Cancer Market, Segmentation by Type:

Trastuzumab

Pertuzumab

Lapatinib

Neratinib

Trastuzumab Emtansine

Pyrotinib

Others

Global HER-2 Targeted Drugs for Breast Cancer Market, Segmentation by Route of Administration:

Intravenous HER2-Targeted Drug

Subcutaneous HER2-Targeted Drug

Oral HER2-Targeted Drug

Global HER-2 Targeted Drugs for Breast Cancer Market, Segmentation by Product Type:

Originator HER2-Targeted Drug

HER2-Targeted Biosimilar

Improved HER2 Biologic

Novel HER2 ADC

Generic HER2 TKI

Global HER-2 Targeted Drugs for Breast Cancer Market, Segmentation by Application:

Hospital

Clinic

Laboratory

Others

Companies Profiled:

Roche

GlaxoSmithKline(GSK)

Novartis

Pfizer

CANbridge

Puma Biotechnology

Hengrui Medicine

Beacon Pharma

Hetero Drugs

Eli Lilly and Company

AstraZeneca

Henlius

Key Questions Answered

1. How big is the global HER-2 Targeted Drugs for Breast Cancer market?
2. What is the demand of the global HER-2 Targeted Drugs for Breast Cancer market?
3. What is the year over year growth of the global HER-2 Targeted Drugs for Breast Cancer market?
4. What is the total value of the global HER-2 Targeted Drugs for Breast Cancer market?
5. Who are the Major Players in the global HER-2 Targeted Drugs for Breast Cancer market?
6. What are the growth factors driving the market demand?
