According to our (Global Info Research) latest study, the global Herbal Medicine market size was valued at US\$ 196150 million in 2025 and is forecast to a readjusted size of US\$ 296560 million by 2032 with a CAGR of 6.2% during review period.

Herbal medicine--also called botanical medicine or phytomedicine refers to using a plant's seeds, berries, roots, leaves, bark, or flowers for medicinal purposes. Herbalism has a long tradition of use outside of conventional medicine. It is becoming more mainstream as improvements in analysis and quality control along with advances in clinical research show the value of herbal medicine in the treating and preventing disease.

Traditional herbal medicines are naturally occurring, plant-derived substances with minimal or no industrial processing that have been used to treat illness within local or regional healing practices.

Asia-Pacific is the largest region of Herbal Medicine, with a market share about 50%, followed by Europe and North America, etc. Tsumura, Schwabe, Yunnan Baiyao, Tongrentang and TASLY are the key manufacturers of industry, and top 10 players had less than 25% combined market share.

This report is a detailed and comprehensive analysis for global Herbal Medicine market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some
