Abstracts

According to our (Global Info Research) latest study, the global Herbal Supplement for Mental Health market size was valued at US$ 4863 million in 2025 and is forecast to a readjusted size of US$ 8100 million by 2032 with a CAGR of 7.5% during review period.

Herbal Supplement for Mental Health refers to a dietary supplement formulated primarily with herbs, botanical extracts or plant-derived active ingredients and positioned to support emotional well-being, stress adaptation, relaxation, mood balance, sleep quality, cognitive resilience and related aspects of mental wellness. Typical botanical ingredients include ashwagandha, saffron, rhodiola, St. John’s wort, valerian, passionflower, lemon balm, chamomile, holy basil, ginkgo, bacopa, magnolia bark and other traditionally used or standardized plant extracts. Commercial products are available as capsules, tablets, gummies, powders, liquids, tinctures, teas and sachets and may contain either a single botanical or combinations of multiple herbs and complementary nutrients. Key product parameters include botanical species, extract ratio, standardized active-compound concentration, daily botanical dosage, dosage form, serving count, sourcing quality and certification status. The research scope focuses on finished non-prescription herbal dietary supplements in which botanical ingredients represent a principal functional component for stress management, mood support, relaxation, sleep-related mental wellness or cognitive support in generally healthy consumers.

Key Findings

The global average selling price reached approximately US$22.50 per unit in 2025

+357 96 030922
info@marketpublishers.com

Ashwagandha-based supplements represented one of the largest and fastest-commercializing botanical categories

Capsules and tablets remained the largest dosage form while gummies continued to gain consumer acceptance

North America represented the largest high-value market while Asia maintained strong traditional herbal-consumption foundations

Market Trends

The Herbal Supplement for Mental Health industry is shifting from traditional single-herb products toward standardized botanical extracts, multi-herbal formulations and convenience-oriented formats positioned around clearly defined wellness outcomes. Ashwagandha has become one of the most commercialized adaptogenic ingredients for stress and emotional wellness, while saffron is increasingly incorporated into premium mood-support formulations because standardized extracts can be formulated at relatively low daily doses. Rhodiola remains important in stress-adaptation and fatigue-related products, while valerian, passionflower, lemon balm and chamomile are widely incorporated into relaxation and sleep-support formulations. Bacopa and ginkgo continue to serve cognitive-wellness applications. Product development is increasingly focused on standardized levels of active constituents, traceable botanical sourcing, clinically studied branded extracts, vegan or clean-label formulations and combinations of botanicals with magnesium, B vitamins, probiotics or amino acids. Gummies are expanding beyond traditional vitamin categories into stress and mood-support products, while powders and drink mixes provide opportunities for lifestyle-oriented positioning. Digital direct-to-consumer brands increasingly emphasize emotional wellness, stress resilience and daily routines rather than disease-oriented claims. Longer-term competition will center on clinical substantiation, standardized potency, sensory experience, clean-label formulation, convenient dosing and the ability to communicate compliant structure-function benefits without crossing into pharmaceutical treatment claims.

Market Dynamics

Drivers

+357 96 030922
info@marketpublishers.com

Demand is supported by rising consumer awareness of stress, sleep quality, emotional balance and cognitive well-being, together with increasing interest in non-prescription and plant-based approaches to daily wellness. Modern work patterns, digital-device exposure, irregular sleep schedules and greater public discussion of mental well-being are expanding the addressable consumer population. Ashwagandha, saffron, rhodiola and calming botanicals have benefited from broader mainstream recognition and increasing availability through pharmacies, health-food stores, supermarkets and e-commerce platforms. Consumers increasingly seek products that can be incorporated into routine self-care rather than used only episodically. The expansion of standardized branded botanical extracts also allows supplement companies to formulate products around defined concentrations and supporting clinical evidence. Direct-to-consumer distribution and social-media education accelerate awareness of adaptogens and botanical mood-support ingredients, while established supplement companies can leverage trust, regulatory experience and broad retail distribution. Aging populations also create demand for cognitive and emotional-wellness products, while younger consumers show strong interest in stress management, sleep and relaxation.

Restraints

Market development is constrained by differences in regulatory treatment, permitted health claims and consumer perceptions across countries. Herbal ingredients may be regulated as dietary supplements, traditional medicines, foods or pharmaceutical products depending on jurisdiction, complicating global product standardization. Scientific evidence also varies significantly among botanicals, extract types and dosages, and findings obtained with one standardized extract may not apply to another formulation. Product quality can be affected by botanical species identification, geographic origin, extraction method, adulteration, pesticide residues and active-compound variability. Some herbs can interact with prescription medicines or may not be suitable for particular consumer groups, increasing the importance of responsible labeling. Mental-health-related marketing is particularly sensitive because supplement brands must avoid claims implying diagnosis, prevention or treatment of psychiatric diseases. Competitive pressure is also high because entry barriers for basic single-herb products are relatively low, resulting in price competition and substantial differentiation challenges. Consumer skepticism toward supplements and periodic regulatory scrutiny of unsupported claims can further slow adoption.

Opportunities

+357 96 030922
info@marketpublishers.com

Strong opportunities are emerging in standardized saffron formulations, clinically researched ashwagandha extracts, adaptogen combinations, botanical sleep-support formulas and products integrating mental wellness with gut health, cognitive performance or women's health. Premium consumers increasingly value branded extracts with defined active-compound levels and traceable sourcing, creating opportunities for differentiated higher-value formulations. Gummies, powders, stick packs and functional beverage formats can attract younger consumers who are less interested in conventional tablets. Personalized supplement programs can combine stress, sleep and cognitive-support botanicals according to lifestyle needs, while subscription models can improve recurring purchases. E-commerce provides smaller specialist brands with direct access to consumers and supports education around individual botanicals. Traditional herbal systems such as Ayurveda and European phytotherapy also provide ingredients and formulation concepts that can be adapted to modern supplement formats. Companies capable of combining botanical expertise, clinical substantiation, regulatory compliance, attractive formulation and strong consumer branding are positioned to capture greater value as mental wellness becomes a more established part of preventive self-care.

Challenges

The industry faces the challenge of maintaining credibility in a category where consumer demand is strong but product evidence and quality can vary widely. Manufacturers must ensure accurate botanical identification, consistent extract potency and control of contaminants while sourcing plants from agricultural supply chains exposed to climate, harvest and price variability. Clinical research is costly, particularly when suppliers seek to demonstrate benefits for subjective outcomes such as stress, mood or sleep. The same botanical may be sold at substantially different extract ratios and active-compound levels, making consumer comparison difficult. Regulatory agencies closely scrutinize mental-health-related claims, requiring brands to communicate benefits around support and maintenance rather than treatment. Online marketplaces can also contain low-quality products that increase consumer confusion and weaken trust in the broader category. Companies must balance the appeal of emerging ingredients with sufficient safety and substantiation, while established herbs face commoditization and pricing pressure. Long-term success therefore depends on ingredient transparency, scientific credibility, manufacturing quality, regulatory discipline and the ability to distinguish clinically meaningful formulations from generic herbal products.

+357 96 030922
info@marketpublishers.com

Industry Chain Analysis

The upstream industry includes cultivation and collection of medicinal and functional herbs, botanical raw-material suppliers, extraction companies, standardized botanical ingredient manufacturers, excipient suppliers, capsule and gummy ingredients, packaging materials and laboratory-testing providers. Agricultural conditions, species authenticity, harvest timing and post-harvest processing directly influence active-compound content and raw-material quality. Midstream manufacturers undertake extraction or ingredient procurement, formulation development, dosage optimization, blending, encapsulation, tableting, gummy production, powder filling, liquid processing, stability testing, contaminant testing, quality assurance and packaging. Brand owners may manufacture internally or use contract manufacturers while maintaining control over formulation, ingredient specifications and marketing. Downstream channels include pharmacies, health-food stores, supermarkets, specialty nutrition stores, brand websites, online marketplaces and practitioner channels. Value creation is increasingly concentrated in standardized extracts, clinical substantiation, proprietary formulations, quality certification, transparent sourcing, brand credibility and effective consumer education rather than in basic raw-herb supply alone.

Segment Insights

By botanical ingredient, ashwagandha-based products represent one of the most important commercial segments because of broad consumer awareness and extensive positioning around stress adaptation, calm and sleep-related wellness. Saffron-based products occupy a smaller but higher-value segment and are increasingly incorporated into premium emotional-wellness formulations. Rhodiola is positioned primarily around adaptation to stress, fatigue and mental performance, while valerian and passionflower are more strongly associated with relaxation and sleep. St. John’s wort remains commercially relevant in selected markets but is more sensitive to regulatory restrictions and medication-interaction considerations. Bacopa and ginkgo are important for cognitive-support positioning. Multi-herbal formulations allow manufacturers to address several related wellness needs within one product and are increasingly common in premium stress and mood-support categories.

By dosage form, capsules and tablets remain dominant because they provide accurate dosing, good ingredient stability and established consumer acceptance. Gummies are gaining share because of convenience and sensory appeal, particularly among younger consumers, although formulation limitations can restrict botanical loading. Powders support larger daily doses and are often positioned within adaptogenic lifestyle routines,

+357 96 030922
info@marketpublishers.com

while liquids and tinctures appeal to traditional herbal users and consumers seeking flexible dosing. Tea and sachet formats combine supplementation with relaxation rituals and remain relevant for calming herbs. Daily botanical extract dosage varies widely by ingredient because standardized saffron may be effective at tens of milligrams while ashwagandha, rhodiola or mixed botanical formulas may use several hundred milligrams or more, making dosage classification most meaningful when interpreted together with extract concentration and standardization.

Downstream Market Opportunities

Online sales represent an increasingly important channel because mental-wellness supplements benefit from educational content, ingredient storytelling, subscription programs and direct-to-consumer brand relationships. Consumers frequently research stress, sleep, mood and adaptogens before purchase, giving digital channels an advantage for detailed formulation communication. Offline channels remain important for trust and product discovery, particularly pharmacies, health-food stores and specialty supplement retailers where consumers value professional recommendations and immediate availability. Established brands with broad retail networks can reach mainstream consumers, while digitally native brands can build specialized communities around stress management, women's wellness and cognitive performance. Omnichannel strategies are increasingly important as consumers move between online research and physical-store purchasing.

Regional Insights

North America represents the largest high-value market for Herbal Supplement for Mental Health, supported by a mature dietary-supplement industry, strong e-commerce penetration and broad consumer awareness of adaptogens and stress-support products. Ashwagandha, saffron, rhodiola and multi-botanical formulations are widely available through both specialist and mainstream channels. Europe has a long tradition of herbal medicine and phytotherapy and maintains significant demand for valerian, St. John’s wort, passionflower and other botanicals, although regulatory treatment varies by country. Asia has deep traditional herbal-consumption foundations, particularly through Ayurveda and other regional botanical systems. India has strong capabilities in ashwagandha and Ayurvedic formulations and serves both domestic and export markets. Australia has a mature complementary-medicine market supported by established brands. China and Japan have large traditional herbal and functional-food sectors, but products specifically commercialized under the modern Herbal Supplement

+357 96 030922
info@marketpublishers.com

for Mental Health category are less standardized as a distinct market segment than in North America. Future regional growth will depend on regulatory clarity, consumer education, modern dosage formats and increased adoption of standardized botanical extracts.

Competitive Landscape Analysis

The Herbal Supplement for Mental Health market includes large multinational nutrition companies, established herbal specialists and digitally native wellness brands. Amway participates through Nutrilite botanical products, while Nestlé Health Science has exposure through specialist supplement brands including Pure Encapsulations and Nature’s Bounty-related product portfolios. Schwabe and Arkopharma bring long-standing European phytotherapy expertise, while Gaia Herbs has built a strong position around vertically integrated herbal sourcing and multi-botanical stress and relaxation products. NOW Foods, Nature’s Way, Solgar, Life Extension, Jarrow Formulas, Solaray, Swanson Health Products and New Chapter compete through broad supplement distribution and established botanical ranges. Himalaya Wellness and Organic India provide strong Ayurveda-based positioning, while Blackmores and H&H/Swisse are important Asia-Pacific consumer-health brands. HUM Nutrition, Moon Juice and other lifestyle-oriented brands compete through modern formulation, digital marketing and younger consumer demographics. Competition is increasingly shifting from basic herb availability toward standardized active compounds, branded extracts, clinical evidence, transparent sourcing, dosage convenience and credible positioning around stress, mood, sleep and cognitive wellness.

Report Scope

This report is a detailed and comprehensive analysis for global Herbal Supplement for Mental Health market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Botanical Ingredient and by Sales Channel. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

info@marketpublishers.com

Key Features:

Global Herbal Supplement for Mental Health market size and forecasts, in consumption value ($ Million), sales quantity (K Units), and average selling prices (US$/Unit), 2021-2032

Global Herbal Supplement for Mental Health market size and forecasts by region and country, in consumption value ($ Million), sales quantity (K Units), and average selling prices (US$/Unit), 2021-2032

Global Herbal Supplement for Mental Health market size and forecasts, by Botanical Ingredient and by Sales Channel, in consumption value ($ Million), sales quantity (K Units), and average selling prices (US$/Unit), 2021-2032

Global Herbal Supplement for Mental Health market shares of main players, shipments in revenue ($ Million), sales quantity (K Units), and ASP (US$/Unit), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Herbal Supplement for Mental Health

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Herbal Supplement for Mental Health market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Amway, Nestlé Health Science, Schwabe, Gaia Herbs, Arkopharma, NOW Foods, Jamieson Wellness, Natrol, Blackmores, Health and Happiness (H&H), etc.

This report also provides key insights about market drivers, restraints, opportunities,

3 COMPETITIVE ENVIRONMENT: HERBAL SUPPLEMENT FOR MENTAL HEALTH BY MANUFACTURER

3.1 Global Herbal Supplement for Mental Health Sales Quantity by Manufacturer (2021-2026)
3.2 Global Herbal Supplement for Mental Health Revenue by Manufacturer (2021-2026)
3.3 Global Herbal Supplement for Mental Health Average Price by Manufacturer (2021-2026)
3.4 Market Share Analysis (2025)
3.4.1 Producer Shipments of Herbal Supplement for Mental Health by Manufacturer Revenue ($MM) and Market Share (%): 2025
3.4.2 Top 3 Herbal Supplement for Mental Health Manufacturer Market Share in 2025
3.4.3 Top 6 Herbal Supplement for Mental Health Manufacturer Market Share in 2025
3.5 Herbal Supplement for Mental Health Market: Overall Company Footprint Analysis
3.5.1 Herbal Supplement for Mental Health Market: Region Footprint

+357 96 030922
info@marketpublishers.com

3.5.2 Herbal Supplement for Mental Health Market: Company Product Type Footprint
3.5.3 Herbal Supplement for Mental Health Market: Company Product Application Footprint
3.6 New Market Entrants and Barriers to Market Entry
3.7 Mergers, Acquisition, Agreements, and Collaborations

4 CONSUMPTION ANALYSIS BY REGION

4.1 Global Herbal Supplement for Mental Health Market Size by Region
4.1.1 Global Herbal Supplement for Mental Health Sales Quantity by Region (2021-2032)
4.1.2 Global Herbal Supplement for Mental Health Consumption Value by Region (2021-2032)
4.1.3 Global Herbal Supplement for Mental Health Average Price by Region (2021-2032)
4.2 North America Herbal Supplement for Mental Health Consumption Value (2021-2032)
4.3 Europe Herbal Supplement for Mental Health Consumption Value (2021-2032)
4.4 Asia-Pacific Herbal Supplement for Mental Health Consumption Value (2021-2032)
4.5 South America Herbal Supplement for Mental Health Consumption Value (2021-2032)
4.6 Middle East & Africa Herbal Supplement for Mental Health Consumption Value (2021-2032)

5 MARKET SEGMENT BY BOTANICAL INGREDIENT

5.1 Global Herbal Supplement for Mental Health Sales Quantity by Botanical Ingredient (2021-2032)
5.2 Global Herbal Supplement for Mental Health Consumption Value by Botanical Ingredient (2021-2032)
5.3 Global Herbal Supplement for Mental Health Average Price by Botanical Ingredient (2021-2032)

6 MARKET SEGMENT BY SALES CHANNEL

6.1 Global Herbal Supplement for Mental Health Sales Quantity by Sales Channel (2021-2032)
6.2 Global Herbal Supplement for Mental Health Consumption Value by Sales Channel (2021-2032)

+357 96 030922
info@marketpublishers.com

6.3 Global Herbal Supplement for Mental Health Average Price by Sales Channel (2021-2032)

7 NORTH AMERICA

7.1 North America Herbal Supplement for Mental Health Sales Quantity by Botanical Ingredient (2021-2032)
7.2 North America Herbal Supplement for Mental Health Sales Quantity by Sales Channel (2021-2032)
7.3 North America Herbal Supplement for Mental Health Market Size by Country
  7.3.1 North America Herbal Supplement for Mental Health Sales Quantity by Country (2021-2032)
  7.3.2 North America Herbal Supplement for Mental Health Consumption Value by Country (2021-2032)
  7.3.3 United States Market Size and Forecast (2021-2032)
  7.3.4 Canada Market Size and Forecast (2021-2032)
  7.3.5 Mexico Market Size and Forecast (2021-2032)

8 EUROPE

8.1 Europe Herbal Supplement for Mental Health Sales Quantity by Botanical Ingredient (2021-2032)
8.2 Europe Herbal Supplement for Mental Health Sales Quantity by Sales Channel (2021-2032)
8.3 Europe Herbal Supplement for Mental Health Market Size by Country
  8.3.1 Europe Herbal Supplement for Mental Health Sales Quantity by Country (2021-2032)
  8.3.2 Europe Herbal Supplement for Mental Health Consumption Value by Country (2021-2032)
  8.3.3 Germany Market Size and Forecast (2021-2032)
  8.3.4 France Market Size and Forecast (2021-2032)
  8.3.5 United Kingdom Market Size and Forecast (2021-2032)
  8.3.6 Russia Market Size and Forecast (2021-2032)
  8.3.7 Italy Market Size and Forecast (2021-2032)

9 ASIA-PACIFIC

9.1 Asia-Pacific Herbal Supplement for Mental Health Sales Quantity by Botanical Ingredient (2021-2032)

+357 96 030922
info@marketpublishers.com

9.2 Asia-Pacific Herbal Supplement for Mental Health Sales Quantity by Sales Channel (2021-2032)
9.3 Asia-Pacific Herbal Supplement for Mental Health Market Size by Region
9.3.1 Asia-Pacific Herbal Supplement for Mental Health Sales Quantity by Region (2021-2032)
9.3.2 Asia-Pacific Herbal Supplement for Mental Health Consumption Value by Region (2021-2032)
9.3.3 China Market Size and Forecast (2021-2032)
9.3.4 Japan Market Size and Forecast (2021-2032)
9.3.5 South Korea Market Size and Forecast (2021-2032)
9.3.6 India Market Size and Forecast (2021-2032)
9.3.7 Southeast Asia Market Size and Forecast (2021-2032)
9.3.8 Australia Market Size and Forecast (2021-2032)

10 SOUTH AMERICA

10.1 South America Herbal Supplement for Mental Health Sales Quantity by Botanical Ingredient (2021-2032)
10.2 South America Herbal Supplement for Mental Health Sales Quantity by Sales Channel (2021-2032)
10.3 South America Herbal Supplement for Mental Health Market Size by Country
10.3.1 South America Herbal Supplement for Mental Health Sales Quantity by Country (2021-2032)
10.3.2 South America Herbal Supplement for Mental Health Consumption Value by Country (2021-2032)
10.3.3 Brazil Market Size and Forecast (2021-2032)
10.3.4 Argentina Market Size and Forecast (2021-2032)

11 MIDDLE EAST & AFRICA

11.1 Middle East & Africa Herbal Supplement for Mental Health Sales Quantity by Botanical Ingredient (2021-2032)
11.2 Middle East & Africa Herbal Supplement for Mental Health Sales Quantity by Sales Channel (2021-2032)
11.3 Middle East & Africa Herbal Supplement for Mental Health Market Size by Country
11.3.1 Middle East & Africa Herbal Supplement for Mental Health Sales Quantity by Country (2021-2032)
11.3.2 Middle East & Africa Herbal Supplement for Mental Health Consumption Value by Country (2021-2032)

+357 96 030922
info@marketpublishers.com

11.3.3 Turkey Market Size and Forecast (2021-2032)
11.3.4 Egypt Market Size and Forecast (2021-2032)
11.3.5 Saudi Arabia Market Size and Forecast (2021-2032)
11.3.6 South Africa Market Size and Forecast (2021-2032)

12 MARKET DYNAMICS

12.1 Herbal Supplement for Mental Health Market Drivers
12.2 Herbal Supplement for Mental Health Market Restraints
12.3 Herbal Supplement for Mental Health Trends Analysis
12.4 Porters Five Forces Analysis
12.4.1 Threat of New Entrants
12.4.2 Bargaining Power of Suppliers
12.4.3 Bargaining Power of Buyers
12.4.4 Threat of Substitutes
12.4.5 Competitive Rivalry

13 RAW MATERIAL AND INDUSTRY CHAIN

13.1 Raw Material of Herbal Supplement for Mental Health and Key Manufacturers
13.2 Manufacturing Costs Percentage of Herbal Supplement for Mental Health
13.3 Herbal Supplement for Mental Health Production Process
13.4 Industry Value Chain Analysis

14 SHIPMENTS BY DISTRIBUTION CHANNEL

14.1 Sales Channel
14.1.1 Direct to End-User
14.1.2 Distributors
14.2 Herbal Supplement for Mental Health Typical Distributors
14.3 Herbal Supplement for Mental Health Typical Customers

15 RESEARCH FINDINGS AND CONCLUSION
