

# Global High Frequency Induction Power Supply Market 2023 by Manufacturers, Regions, Type and Application, Forecast to 2029

https://marketpublishers.com/r/G102C3109B1DEN.html

Date: July 2023

Pages: 104

Price: US\$ 3,480.00 (Single User License)

ID: G102C3109B1DEN

### **Abstracts**

According to our (Global Info Research) latest study, the global High Frequency Induction Power Supply market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

High Frequency Induction Power Supply is a type of electrical power supply that is used for the purpose of inducing a high-frequency magnetic field into a metallic object. This type of power supply is commonly used in industrial settings for the heating, melting, or surface hardening of metals, such as steel or aluminum. The power supply works by generating a high-frequency current that is passed through a coil of wire, which generates a high-frequency magnetic field. This magnetic field is then used to induce eddy currents within the metal being treated, which generates heat and causes the desired transformation or treatment to occur.

This report is a detailed and comprehensive analysis for global High Frequency Induction Power Supply market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:

Global High Frequency Induction Power Supply market size and forecasts, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2018-2029

Global High Frequency Induction Power Supply market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2018-2029

Global High Frequency Induction Power Supply market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2018-2029

Global High Frequency Induction Power Supply market shares of main players, shipments in revenue (\$ Million), sales quantity (K Units), and ASP (US\$/Unit), 2018-2023

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for High Frequency Induction Power Supply

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global High Frequency Induction Power Supply market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include AMELT, Induction Technology Corporation (ITC), Inductotherm, UltraFlex Power Technologies and Across International, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Market Segmentation

High Frequency Induction Power Supply market is split by Type and by Application. For

the period 2018-2029, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

# **Contents**

#### 1 MARKET OVERVIEW

- 1.1 Product Overview and Scope of High Frequency Induction Power Supply
- 1.2 Market Estimation Caveats and Base Year
- 1.3 Market Analysis by Type
  - 1.3.1 Overview: Global High Frequency Induction Power Supply Consumption Value

by Type: 2018 Versus 2022 Versus 2029

1.3.2 Power: >100 kW

1.3.3 Power:

## **List Of Tables**

#### LIST OF TABLES

Table 1. Global High Frequency Induction Power Supply Consumption Value by Type, (USD Million), 2018 & 2022 & 2029
