Abstracts

Host Analytics channel partners resell the product provided by Host Analytics and provide services to help companies with implementation, training, and industry-specific best practices. Since Host Analytics channel partners may also resell other corporate performance management software products, some of them also offer services for software selection. Furthermore, Host Analytics channel partners usually focus on other areas of expertise that are related to CPM, such as ERP systems, business intelligence, and document management. To help customers optimize the use of CPM software together with other business software products, Host Analytics channel partners provide services for integration and data management such as data warehousing.

According to our (Global Info Research) latest study, the global Host Analytics Channel Partner market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period.
