According to our (Global Info Research) latest study, the global House Plaque market size was valued at US$ million in 2025 and is forecast to a readjusted size of US$ million by 2032 with a CAGR of %during review period.

House Plaque is a sign mounted on the exterior of a building to display the house number, resident name, building name, or other relevant information. These plaques are usually made of durable materials such as metal, wood, ceramic, glass, or acrylic to ensure durability and readability in all weather conditions. In design, house plaques can be simple functional signs or have decorative elements that enhance the beauty and personalization of the building.

This report is a detailed and comprehensive analysis for global House Plaque market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global House Plaque market size and forecasts, in consumption value ($ Million), sales quantity (K Units), and average selling prices (US$/Unit), 2021-2032
