According to our (Global Info Research) latest study, the global Hybrid Boats market size was valued at USD 105 million in 2023 and is forecast to a readjusted size of USD 186.7 million by 2030 with a CAGR of 8.6% during review period.

A Hybrid boat is a perfect blend between a bay boat and a center console. If you're looking for a boat that you can have the confidence to take offshore and target pelagics, but also need the versatility to float in less than 16 inches of water, the HB line does both of these exceptionally well.

A hybrid uses an electric motor and a combustion engine to drive a boat across the water, so if you drain the batteries, you can sail quietly knowing you have fuel to get home. A clutch allows propulsion to be transferred between the electric motor and the combustion engine.

The report focus on hybrid boat industry which based on the product application in Sport, Fishing, etc.

Global key players of hybrid boats include Greenline Yachts, Bavaria Motorboats, NauticStar, ETHOS(Azure Embark), Blue Wave, etc. Global top five manufacturers hold a share over 63%.
