Abstracts

According to our (Global Info Research) latest study, the global Hydrophilic Coating Aluminium Foil market size was valued at US\$ 383 million in 2025 and is forecast to a readjusted size of US\$ 474 million by 2032 with a CAGR of 3.0% during review period.

Hydrophilic coating aluminium foil is an industrial roll product in which a durable hydrophilic functional layer is applied to the aluminium substrate to improve condensate drainage and corrosion resistance for heat exchangers and air-conditioning systems. Upstream are primarily electrolytic aluminium ingots and rolling mill services, supplied by representative companies such as Alcoa, Rio Tinto, Norsk Hydro, Novelis and Constellium. The midstream focuses on coating formulation development, roll-to-roll coating and drying, surface modification and curing, slitting and converting, and quality and durability testing to ensure long-term hydrophilic performance. Downstream applications include air conditioners, refrigeration and heat-exchange equipment with representative customers such as Carrier, Daikin, Midea, Gree and Haier. In 2025, production was 120 million square meters and the average price was USD 3.1 per square meter. The industry's capacity utilization rate in 2025 was about 70%, and the average gross margin was around 15%.

The market outlook for hydrophilic coating aluminium foil remains strongly positive, driven by the global shift toward higher-efficiency air conditioning, refrigeration, and new-energy thermal management systems. As regulations tighten on energy efficiency and emission reduction, heat exchangers require materials with better thermal conductivity, corrosion resistance, and long-term stability. Hydrophilic coating aluminium foil enhances condensation performance, minimizes water retention, and improves overall system efficiency, making it a critical material in next-generation heat-exchange

designs. At the same time, Chinese manufacturers have advanced rapidly in coating technology, surface-treatment consistency, and continuous large-scale production, strengthening their position in the global supply chain. With the rising demand for high-efficiency thermal systems, its application penetration will continue to expand, supporting a sustained growth trajectory.

This report is a detailed and comprehensive analysis for global Hydrophilic Coating Aluminium Foil market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Hydrophilic Coating Aluminium Foil market size and forecasts, in consumption value (\$ Million), sales quantity (Sq m), and average selling prices (US\$/Sq m), 2021-2032

Global Hydrophilic Coating Aluminium Foil market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Sq m), and average selling prices (US\$/Sq m), 2021-2032

Global Hydrophilic Coating Aluminium Foil market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Sq m), and average selling prices (US\$/Sq m), 2021-2032

Global Hydrophilic Coating Aluminium Foil market shares of main players, shipments in revenue (\$ Million), sales quantity (Sq m), and ASP (US\$/Sq m), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Hydrophilic Coating Aluminium Foil

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Hydrophilic Coating Aluminium Foil market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Dingsheng New Materials (China), Jiangsu Alcha Aluminium Group (China), Henan Mingtai Al. Industrial (China), Shantou Wanshun New Material Group (China), Chalco Aluminum (China), Guangdong Hec Technology (China), UACJ (Japan), Novelis Korea (South Korea), Shandong Nanshan Aluminum (China), Shanghai Huafo Aluminum Corporation (China), etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Hydrophilic Coating Aluminium Foil market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Hydrophilic Coating Aluminium Foil Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 8011

1.3.3 1100

1.3.4 1200

1.3.5 3102

1.3.6 Others

1.4 Market Analysis by Thickness

1.4.1 Overview: Global Hydrophilic Coating Aluminium Foil Consumption Value by Thickness: 2021 Versus 2025 Versus 2032

1.4.2 Thickness
