Icing sugar, also known as powdered sugar or confectioner's sugar, is a finely ground sugar with a powdery texture. It's commonly used in baking and confectionery to sweeten and decorate various desserts like cakes, cookies, and pastries. Icing sugar is made by milling granulated sugar into a powdered form and often includes a small amount of cornstarch to prevent clumping. It's versatile in culinary applications, as its fine texture allows it to dissolve quickly and blend smoothly into icings, glazes, and whipped creams.

In terms of product type, Icing Sugar Mixture is the largest segment, accounting for a share about 69%. In terms of application, Baking is the largest field with a share about 53 percent.
