Abstracts

According to our (Global Info Research) latest study, the global ID Verification Service market size was valued at US\$ 4023 million in 2025 and is forecast to a readjusted size of US\$ 7528 million by 2032 with a CAGR of 9.5% during review period.

ID Verification Service is a service that verifies whether a person is who they claim to be by checking identity evidence, validating information, and confirming that the claimed identity can be trusted for a given transaction or onboarding process. NIST's digital identity guidance describes this as part of identity proofing, which includes resolution, validation, and verification of identity evidence for digital use.

An ID verification service helps a business, government agency, platform, or financial institution confirm that the user is a real person, that the identity documents or attributes are valid, and, in many cases, that the person presenting the identity is the true owner and is genuinely present. Modern ID verification workflows commonly combine document checks, biometric checks, data checks, and fraud/risk signals.

The ID verification service market is experiencing significant growth due to the increasing need for secure and reliable identity verification solutions across various industries. Major sales regions for ID verification services include North America, Europe, Asia Pacific, and the rest of the world. North America holds a significant share in the market due to the presence of major players and the adoption of advanced technologies in the region. The increasing number of online transactions and the need for compliance with regulations such as Know Your Customer (KYC) and Anti-Money Laundering (AML) are driving the demand for ID verification services in this region. Europe is also a prominent market for ID verification services, driven by the

stringent regulations related to data protection and privacy. The General Data Protection Regulation (GDPR) has increased the demand for secure and compliant ID verification solutions in the region. Asia Pacific is expected to witness significant growth in the ID verification service market due to the increasing adoption of digital technologies and the rise in online transactions. The growing e-commerce industry and the need for secure customer onboarding are driving the demand for ID verification services in this region. The market concentration in the ID verification service market is relatively high, with a few major players dominating the market. These players have a strong presence and offer a wide range of ID verification solutions to cater to the diverse needs of businesses across industries. Market opportunities in the ID verification service market include the integration of artificial intelligence (AI) and machine learning (ML) technologies to enhance the accuracy and efficiency of ID verification processes. The increasing adoption of mobile devices and the rise in remote onboarding processes also present opportunities for ID verification service providers. However, the market also faces challenges such as the increasing sophistication of fraudsters and the need for continuous innovation to stay ahead of evolving fraud techniques. Additionally, the regulatory landscape and compliance requirements pose challenges for ID verification service providers, as they need to ensure compliance with various regulations while providing efficient and user-friendly solutions.

This report is a detailed and comprehensive analysis for global ID Verification Service market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global ID Verification Service market size and forecasts, in consumption value (\$ Million), 2021-2032

Global ID Verification Service market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global ID Verification Service market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global ID Verification Service market shares of main players, in revenue (\$ Million),
2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for ID Verification Service

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global ID Verification Service market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include TrustID, iDenfy, Trulioo, Regula, ID&V, GBG ID3global, Berbix, GetID, Sumsu, Shufti Pro, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

ID Verification Service market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by regions, regional analysis covers

North America (United States, Canada and Mexico)

Europe (Germany, France, UK, Russia, Italy and Rest of Europe)

Asia-Pacific (China, Japan, South Korea, India, Southeast Asia and Rest of Asia-Pacific)

South America (Brazil, Rest of South America)

Middle East & Africa (Turkey, Saudi Arabia, UAE, Rest of Middle East & Africa)

The content of the study subjects, includes a total of 13 chapters:

Chapter 1, to describe ID Verification Service product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top players of ID Verification Service, with revenue, gross margin, and global market share of ID Verification Service from 2021 to 2026.

Chapter 3, the ID Verification Service competitive situation, revenue, and global market share of top players are analyzed emphatically by landscape contrast.

Chapter 4 and 5, to segment the market size by Type and by Application, with consumption value and growth rate by Type, by Application, from 2021 to 2032.

Chapter 6, 7, 8, 9, and 10, to break the market size data at the country level, with revenue and market share for key countries in the world, from 2021 to 2026. and ID Verification Service market forecast, by regions, by Type and by Application, with consumption value, from 2027 to 2032.

Chapter 11, market dynamics, drivers, restraints, trends, Porters Five Forces analysis.

Chapter 12, the key raw materials and key suppliers, and industry chain of ID Verification Service.

Chapter 13, to describe ID Verification Service research findings and conclusion.
