Abstracts

In-app advertising is a form of advertising through smartphones wherein the advertisements are integrated into the mobile applications. With adaption of digital marketing and smartphones penetration worldwide, there are lucrative opportunities for in-app advertising worldwide.

Scope of the Report:

This report studies the In-App Advertising market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the In-App Advertising market by product type and applications/end industries.

The global in-app advertising market is primarily driven by the increasing smartphone penetration and increased use of various smart phone applications, which the consumers use regularly such as Facebook, WhatsApp among others. Among various smart phone applications, the messaging applications will have a significant effect on the in-app advertising market as the consumers use the messaging applications on a regular basis compared to other smartphone applications. It is expected that the smartphone messaging applications will gain a billion new users in the next few years, which in turn will drive the market for in-app advertising market globally. Moreover, the increase in the number of smart phone applications downloads from google play store, iOS store will also drive the market for in-app advertising market globally. However, the technicality issues like the testing of advertisements for in-app advertising for different smartphone software's like android and iOS are time-consuming as both software's display contents differently which might pose as a restraint to the in-app advertising

market globally.

The global In-App Advertising market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of In-App Advertising.

Europe also play important roles in global market, with market size of xx million USD in 2017 and will be xx million USD in 2023, with a CAGR of xx%.
