Inactive Dried Yeast (nutritional yeast) is a natural source of protein with both essential and non-essential amino acids and is high in B Complex vitamins which are important for energy production. Purpose made by the fermentation It is made from a single cell yeast which is beneficial to our bodies (*Saccharomyces Cerevisiae*) by non-alcoholic fermentation on molasses. It is made inactive and dried on steam heated roller dryers. The product is then milled to a fine, course powder which is light golden in colour with a delicate, toasted yeast flavour (often used to add a nutty, cheese like flavour to dishes). It is a great addition for those looking for a natural way to increase their intake of nutrients.
