## Abstracts

The global Income Tax Valuation Services market size is expected to reach \$ 7660 million by 2032, rising at a market growth of 6.1% CAGR during the forecast period (2026-2032).

Income tax valuation services are independent valuation, economic analysis, and pricing support services provided by third-party professional service organizations in scenarios such as corporate income tax, personal income tax, cross-border related-party transactions, equity incentives, corporate restructuring, intangible asset transfers, tax disputes, and tax compliance. This research focuses on professional services used to determine or support fair market value, arm's length transaction price, tax base, equity value, business value, intangible asset value, financial instrument value, equity incentive value, and related-party transaction consideration. The main product forms include tax valuation reports, transfer pricing valuation models, 409A valuation reports, intangible asset income tax valuation, corporate restructuring valuation, management incentive rights valuation, tax dispute valuation support, tax authority inquiry support, cross-border transaction economic analysis, and tax planning valuation memorandums. Its core function is to help companies reach interpretable, verifiable, and defensible value conclusions in scenarios such as income tax filing, tax planning, mergers and acquisitions, cross-border profit distribution, related-party transaction pricing, and tax audits.

This report studies the global Income Tax Valuation Services demand, key companies, and key regions.
