Abstracts

Procure to pay (purchase to pay or P2P) is the process of obtaining and managing the raw materials needed for manufacturing a product or providing a service. It involves the transactional flow of data that is sent to a supplier as well as the data that surrounds the fulfillment of the actual order and payment for the product or service, the transfer of specified key procurement activities relating to sourcing and supplier management to a third party ? perhaps to reduce overall costs or maybe to tighten the company's focus on its core competencies. Procurement categorisation and vendor management of indirect materials and services (commonly referred to as Indirect procurement) are typically the most popular outsourced activity.

SCOPE OF THE REPORT:

Indirect categories are all the goods and services that are bought by the company to enable its activity. This entails a wide scope, including marketing related services (media buying, agencies), IT related services (hardware, software), HR related services (recruitment agencies, training), facilities management and office services (Telecoms, furniture, cleaning, catering, printers), or utilities (gas, electricity, water)...etc.
