## Abstracts

Industrial blast booths, also known as blast rooms or blast enclosures, are specialized facilities used for surface preparation, cleaning, and finishing of large or oversized workpieces in industrial settings. These booths provide a controlled environment for abrasive blasting processes, which involve propelling abrasive materials at high velocity to remove surface contaminants, scale, rust, coatings, or other unwanted materials from the surface of the workpiece. Blast booths are commonly used in industries such as manufacturing, automotive, aerospace, construction, shipbuilding, and metal fabrication.
