### **SCOPE OF THE REPORT:**

This report focuses on the Industrial Fire Safety Equipment in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Growing concerns about safety, implementation of building safety codes, and renovation conducts have been propelling the growth of the global fire protection equipment market. In China, for instance, the Code of Design for Building Fire Protection and Prevention needs to be adhered to. State agencies have developed these standards in collaboration with municipal agencies, designers, and industrial experts. The public security ministry governs these regulations via local fire services. As the industrial sector in emerging economies flourishes, the number of casualties caused by fire accidents have been escalating. Loss of life and property caused by fire accidents is not uncommon.
