Abstracts

Margarine is a substitute for butter, prepared from vegetable and animal fats by emulsifying them with water and adding small amount of milk, salt, vitamins, colouring matter, etc. Industrial Margarine is an all-purpose margarine suitable for industrial uses related to baking.

Scope of the Report:

This report focuses on the Industrial Margarine in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. North America accounted for the largest market share of the industrial margarine market in 2017. This market is driven by the health-conscious consumers due to the growing incidences of diseases such as diabetes, high-blood pressure, and constipation that has been fueling the market for margarine. The food manufacturers in the US are therefore concentrating on producing margarine products that do not contain any trans-fat. The worldwide market for Industrial Margarine is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
