

Global Infotainment Display Control Modules Market 2026 by Manufacturers, Regions, Type and Application, Forecast to 2032

<https://marketpublishers.com/r/G8E5E30F5BCBEN.html>

Date: June 2026

Pages: 139

Price: US\$ 3,480.00 (Single User License)

ID: G8E5E30F5BCBEN

Abstracts

According to our (Global Info Research) latest study, the global Infotainment Display Control Modules market size was valued at US\$ 15445 million in 2025 and is forecast to a readjusted size of US\$ 27731 million by 2032 with a CAGR of 8.7% during review period.

In 2025, global Infotainment Display Control Module output reached about 250 million units and global capacity of around 320 million units. The average price is about USD 60 per unit, with gross margins near 34%. Infotainment Display Control Modules (IDCMs) are integrated electronic control units (ECUs) in modern vehicles that manage and process visual content displayed on in-vehicle screens, including center stack touchscreens, digital instrument clusters, and passenger displays; they combine high-performance processors (SoCs), graphics processing units (GPUs), memory (DRAM/NAND), display interface ICs (e.g., LVDS, eDP), operating systems (Android Automotive, QNX, Linux), and connectivity modules to deliver functions such as navigation, media playback, vehicle settings, and advanced HMI/UX features. The supply chain begins upstream with semiconductor vendors (e.g., automotive-grade SoCs, display drivers, memory), PCB and electronic component suppliers (capacitors, power management ICs), and display panel manufacturers (LCD/OLED); midstream consists of Tier 1 automotive electronics suppliers who design, integrate, and manufacture the modules (hardware + embedded software + system validation), often in collaboration with OEMs and software providers; downstream, automotive OEMs install these modules into vehicles and integrate them with broader vehicle networks (CAN, Ethernet) and cloud ecosystems, while aftersales services include software updates (OTA), diagnostics, and maintenance, forming a tightly coupled hardware?software?automotive value chain driven by increasing demand for digital

cockpits and intelligent connected vehicles.

This report is a detailed and comprehensive analysis for global Infotainment Display Control Modules market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Infotainment Display Control Modules market size and forecasts, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Infotainment Display Control Modules market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Infotainment Display Control Modules market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Infotainment Display Control Modules market shares of main players, shipments in revenue (\$ Million), sales quantity (K Units), and ASP (US\$/Unit), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Infotainment Display Control Modules

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Infotainment Display Control Modules

market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Bosch (Germany), Continental (Germany), DENSO (Japan), Visteon (USA), Harman (USA), Panasonic (Japan), Marelli (Italy), Valeo (France), Hyundai Mobis (South Korea), Aptiv (Ireland), etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Infotainment Display Control Modules market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Single Display Control Modules

Dual Display Control Modules

Multi-Display Control Modules

Market segment by Boot Time

5?10 Seconds

3?5 Seconds

1?3 Seconds

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Infotainment Display Control Modules Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 Single Display Control Modules

1.3.3 Dual Display Control Modules

1.3.4 Multi-Display Control Modules

1.4 Market Analysis by Boot Time

1.4.1 Overview: Global Infotainment Display Control Modules Consumption Value by Boot Time: 2021 Versus 2025 Versus 2032

1.4.2 5?10 Seconds

1.4.3 3?5 Seconds

1.4.4 1?3 Seconds

1.4.5
