Abstracts

According to our (Global Info Research) latest study, the global Injection-Molded Bearing Cage market size was valued at US\$ 539 million in 2025 and is forecast to a readjusted size of US\$ 786 million by 2032 with a CAGR of 5.5% during review period.

Injection-Molded Bearing Cage refers to a bearing cage manufactured from engineering plastics through injection molding, used to maintain stable positioning and even distribution of balls or rollers within a rolling bearing to reduce friction, decrease noise, improve operational smoothness, and extend service life. Injection-molded cages have advantages such as light weight, corrosion resistance, and high dimensional consistency, and are widely applied in electric motors, automotive systems, household appliances, wind turbines, and industrial transmission equipment. They are an essential structural component in modern rolling bearing design. In 2025, the global market size of injection-molded bearing cages is approximately USD 523.8 million, with annual shipments of about 88.0 million units. The market is expected to grow at a compound annual growth rate (CAGR) of around 5.6% over the next five years. The average market price is approximately USD 5.95 per unit, typical single-line production capacity ranges from 5,800,000 to 21,500,000 units per year, and industry gross margins generally fall within the 19%–33% range.

This report is a detailed and comprehensive analysis for global Injection-Molded Bearing Cage market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market

share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Injection-Molded Bearing Cage market size and forecasts, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Injection-Molded Bearing Cage market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Injection-Molded Bearing Cage market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Injection-Molded Bearing Cage market shares of main players, shipments in revenue (\$ Million), sales quantity (K Units), and ASP (US\$/Unit), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Injection-Molded Bearing Cage

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Injection-Molded Bearing Cage market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Nakanishi Metal Works (NKC), Harsha, MPT Group GmbH, Schaeffler, Dalian Clean Energy Heavy Industrial, New Hampshire Ball Bearings (NHBB), pivotPR?ZISION, SKF, IKO, NTN, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Injection-Molded Bearing Cage market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and

forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Standard Load Bearing Cage

High Load Bearing Cage

Market segment by Roller Arrangement

Single Row Roller Cage

Double Row Roller Cage

Market segment by Application

Machinery Equipment

Automotive

Electrical Appliances

Others

Major players covered

Nakanishi Metal Works (NKC)

Harsha

MPT Group GmbH

Schaeffler

Dalian Clean Energy Heavy Industrial

New Hampshire Ball Bearings (NHBB)

pivotPR?ZISION

SKF

IKO

NTN

Samanjas Udyog

NSK

KMF-bearing

Shandong Golden Empire Precision Machinery Technology

Market segment by region, regional analysis covers

North America (United States, Canada, and Mexico)

Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)

South America (Brazil, Argentina, Colombia, and Rest of South America)

Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

The content of the study subjects, includes a total of 15 chapters:

Chapter 1, to describe Injection-Molded Bearing Cage product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Injection-Molded Bearing Cage, with price, sales quantity, revenue, and global market share of Injection-Molded Bearing Cage from 2021 to 2026.

Chapter 3, the Injection-Molded Bearing Cage competitive situation, sales quantity,

revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Injection-Molded Bearing Cage breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2021 to 2032.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2021 to 2032.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2021 to 2026. and Injection-Molded Bearing Cage market forecast, by regions, by Type, and by Application, with sales and revenue, from 2027 to 2032.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Injection-Molded Bearing Cage.

Chapter 14 and 15, to describe Injection-Molded Bearing Cage sales channel, distributors, customers, research findings and conclusion.
