Abstracts

The global Injection-Molded Bearing Cage market size is expected to reach \$ 786 million by 2032, rising at a market growth of 5.5% CAGR during the forecast period (2026-2032).

Injection-Molded Bearing Cage refers to a bearing cage manufactured from engineering plastics through injection molding, used to maintain stable positioning and even distribution of balls or rollers within a rolling bearing to reduce friction, decrease noise, improve operational smoothness, and extend service life. Injection-molded cages have advantages such as light weight, corrosion resistance, and high dimensional consistency, and are widely applied in electric motors, automotive systems, household appliances, wind turbines, and industrial transmission equipment. They are an essential structural component in modern rolling bearing design. In 2025, the global market size of injection-molded bearing cages is approximately USD 523.8 million, with annual shipments of about 88.0 million units. The market is expected to grow at a compound annual growth rate (CAGR) of around 5.6% over the next five years. The average market price is approximately USD 5.95 per unit, typical single-line production capacity ranges from 5,800,000 to 21,500,000 units per year, and industry gross margins generally fall within the 19%–33% range.

This report studies the global Injection-Molded Bearing Cage production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Injection-Molded Bearing Cage and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Injection-Molded Bearing Cage that

contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Injection-Molded Bearing Cage total production and demand, 2021-2032, (K Units)

Global Injection-Molded Bearing Cage total production value, 2021-2032, (USD Million)

Global Injection-Molded Bearing Cage production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (K Units), (based on production site)

Global Injection-Molded Bearing Cage consumption by region & country, CAGR, 2021-2032 & (K Units)

U.S. VS China: Injection-Molded Bearing Cage domestic production, consumption, key domestic manufacturers and share

Global Injection-Molded Bearing Cage production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (K Units)

Global Injection-Molded Bearing Cage production by Type, production, value, CAGR, 2021-2032, (USD Million) & (K Units)

Global Injection-Molded Bearing Cage production by Application, production, value, CAGR, 2021-2032, (USD Million) & (K Units)

This report profiles key players in the global Injection-Molded Bearing Cage market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Nakanishi Metal Works (NKC), Harsha, MPT Group GmbH, Schaeffler, Dalian Clean Energy Heavy Industrial, New Hampshire Ball Bearings (NHBB), pivotPR?ZISION, SKF, IKO, NTN, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Injection-Molded Bearing Cage market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), volume (production, consumption) & (K Units) and average price (US\$/Unit) by manufacturer, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.

Global Injection-Molded Bearing Cage Market, By Region:

United States

China

Europe

Japan

South Korea

ASEAN

India

Rest of World

Global Injection-Molded Bearing Cage Market, Segmentation by Type:

Standard Load Bearing Cage

High Load Bearing Cage

Global Injection-Molded Bearing Cage Market, Segmentation by Roller Arrangement:

Single Row Roller Cage

Double Row Roller Cage

Global Injection-Molded Bearing Cage Market, Segmentation by Application:

Machinery Equipment

Automotive

Electrical Appliances

Others

Companies Profiled:

Nakanishi Metal Works (NKC)

Harsha

MPT Group GmbH

Schaeffler

Dalian Clean Energy Heavy Industrial

New Hampshire Ball Bearings (NHBB)

pivotPR?ZISION

SKF

IKO

NTN

Samanjas Udyog

NSK

KMF-bearing

Shandong Golden Empire Precision Machinery Technology

Key Questions Answered:

1. How big is the global Injection-Molded Bearing Cage market?
2. What is the demand of the global Injection-Molded Bearing Cage market?
3. What is the year over year growth of the global Injection-Molded Bearing Cage market?
4. What is the production and production value of the global Injection-Molded Bearing Cage market?
5. Who are the key producers in the global Injection-Molded Bearing Cage market?
6. What are the growth factors driving the market demand?

I would like to order

Product name: Global Injection-Molded Bearing Cage Supply, Demand and Key Producers, 2026-2032

Product link: <https://marketpublishers.com/r/G34471DA0029EN.html>

Price: US\$ 4,480.00 (Single User License / Electronic Delivery)
