Abstracts

The global Institutional Pension Services market size is expected to reach \$ 366160 million by 2029, rising at a market growth of 4.2% CAGR during the forecast period (2023-2029).

Between 2015 and 2050, the proportion of the world's population over 60 years will nearly double from 12% to 22%. Substantial increase in the geriatric population across the world has increased the demand for the pension service worldwide.

Elderly care institutions mainly include social welfare homes, elderly apartments, elderly rehabilitation institutions, nursing homes, palliative care institutions, etc. Elderly care institutions are organizations that provide full-time centralized accommodation and care services for the elderly in specialized facilities (nursing homes). Full time elderly care institutions can establish community elderly care service stations or provide home based elderly care services, but they should meet the standards for the establishment of full-time elderly care institutions.

This report studies the global Institutional Pension Services demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Institutional Pension Services, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2022 as the base year.
