## Abstracts

The global Iodate Salt market size is expected to reach \$ 11130 million by 2032, rising at a market growth of 1.6% CAGR during the forecast period (2026-2032).

Iodised salt (also spelled iodized salt) is table salt mixed with a minute amount of various salts of the element iodine. The ingestion of iodine prevents iodine deficiency. Worldwide, iodine deficiency affects about two billion people and is the leading preventable cause of intellectual and developmental disabilities. Deficiency also causes thyroid gland problems, including 'endemic goitre'. In many countries, iodine deficiency is a major public health problem that can be cheaply addressed by purposely adding small amounts of iodine to the sodium chloride salt.

North America is the largest market with about 36% market share. Followed by Europe and China, accounting for about 45% market share.

The key players are Salins Group, Morton Salt, Inc., Compass Minerals, Cargill, Nihonkaisui, China Salt etc. Top 3 companies occupied about 73% revenue market share.

This report studies the global Iodate Salt production, demand, key manufacturers, and key regions.
