Abstracts

Advances in wireless network technology have improved efficiency and connectivity, and improved the passenger experience. These are some of the main factors driving the market. Airlines ’use of IoT technology has reduced some of the most common complaints in the industry, such as lost luggage, flight delays and customers. Service issues. These projects reduced latency by 20% and reduced hours of work by two hours. Global demand for optimized airport operations is driving investment in the Internet of Things, as the implementation of this technology has the potential to bring transparency to airport operations. With the increase in passenger traffic and the increase in the size of airline fleets, airports are required to use new technologies such as the Internet of Things, artificial intelligence and blockchain to make data-based decisions.

According to our (Global Info Research) latest study, the global IoT in Aviation market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

This report is a detailed and comprehensive analysis for global IoT in Aviation market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:

+44 20 8123 2220
info@marketpublishers.com

Global IoT in Aviation market size and forecasts, in consumption value ($ Million), 2018-2029

Global IoT in Aviation market size and forecasts by region and country, in consumption value ($ Million), 2018-2029

Global IoT in Aviation market size and forecasts, by Type and by Application, in consumption value ($ Million), 2018-2029

Global IoT in Aviation market shares of main players, in revenue ($ Million), 2018-2023

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for IoT in Aviation

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global IoT in Aviation market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Microsoft Corporation, IBM, Wind River, Cisco and Amadeus IT Group, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Market segmentation

IoT in Aviation market is split by Type and by Application. For the period 2018-2029, the growth among segments provide accurate calculations and forecasts for consumption value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

+44 20 8123 2220
info@marketpublishers.com

IoT Devices

Sensors & Actuators

Processors

Software and Applications

IoT Platforms

Market segment by Application

Ground Operations

Passenger Processing

Baggage Tracking

Airport Maintenance

Security and Surveillance

Others

Market segment by players, this report covers

Microsoft Corporation

IBM

Wind River

Cisco

Amadeus IT Group

SAP SE

+44 20 8123 2220

Honeywell

Blip System

Market segment by regions, regional analysis covers

North America (United States, Canada, and Mexico)

Europe (Germany, France, UK, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, South Korea, India, Southeast Asia, Australia and Rest of Asia-Pacific)

South America (Brazil, Argentina and Rest of South America)

Middle East & Africa (Turkey, Saudi Arabia, UAE, Rest of Middle East & Africa)

The content of the study subjects, includes a total of 13 chapters:

Chapter 1, to describe IoT in Aviation product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top players of IoT in Aviation, with revenue, gross margin and global market share of IoT in Aviation from 2018 to 2023.

Chapter 3, the IoT in Aviation competitive situation, revenue and global market share of top players are analyzed emphatically by landscape contrast.

Chapter 4 and 5, to segment the market size by Type and application, with consumption value and growth rate by Type, application, from 2018 to 2029.

Chapter 6, 7, 8, 9, and 10, to break the market size data at the country level, with revenue and market share for key countries in the world, from 2018 to 2023.and IoT in Aviation market forecast, by regions, type and application, with consumption value, from 2024 to 2029.

+44 20 8123 2220
info@marketpublishers.com

Chapter 11, market dynamics, drivers, restraints, trends, Porters Five Forces analysis, and Influence of COVID-19 and Russia-Ukraine War

Chapter 12, the key raw materials and key suppliers, and industry chain of IoT in Aviation.

Chapter 13, to describe IoT in Aviation research findings and conclusion.
